School Photo Day

Tuesday 6th September and Wednesday 7th September

SCHOOL PHOTO DAY IS COMING!

Dear Parents,

Our school photo day is coming! Approximately two weeks prior to the photo day every student will receive a Kapture Photography order envelope to bring home. The recommended method of ordering your photos is online through Kapture’s website as your payment is secure and can be easily verified at any time. Alternatively you can pay by cash and return the provided envelope to the school on the photography day. **If you place your order online please DO NOT return your envelope to school.**

Any parent who forgets or is unable to supply their envelope on the photo day will have five (5) days to complete an order online. Late payment envelopes cannot be accepted by the school office or by Kapture.

You also have the option to order a sibling photo package online, however please be aware there may be a limited number of sibling orders that can be placed due to time constraints on photo day. We suggest you place your online sibling order as early as possible to avoid disappointment.

**Please note sibling orders close @ midday sharp Monday 5 September 2016**

Kapture offer a money back guarantee for any parent who is not fully satisfied with their photo package. Should you have any queries before or after photo day, please direct them to the Kapture office on 9240 1714 or email enquiries@kapture.com.au.

All students will be photographed individually on photo day for school administration records AS WELL as included in their class group photo available for purchase to all families. Should there be any reason why your child should NOT be included in the photo shoot—please contact the school office.

Please also note that all students must wear full winter uniform (boys to wear long trousers) for photos. If your child has dance or sport on the day his/her class photo is scheduled please ensure they bring runner/joggers to school for these activities.

Parenting Boys....

Use time and timing to your advantage

It’s stating the obvious that boys and girls are different.

But one of the biggest differences is based around time and timing.

Get your head around this and you start to unravel the secret to successfully raising boys...and reduce some of the frustration you feel when you compare your son with your daughters, or other people’s daughters.

Here are three examples of how time and timing differs with boys, and how you can use this knowledge to your advantage:

1. Their maturity levels
Boys take longer to mature than girls. This is a source of great consternation in many families where the eldest is a boy preceded by a girl. If a boy’s sister is only a couple of years younger, then there’s a good chance they are on a par academically and socially.

Differing maturity rates affect boys’ school readiness, their transition to secondary school, and their move into adulthood.

2. What motivates them
Boys are more likely to live in the now than girls. A generalisation I know, but it’s true. Teenage boys, in particular, live for the moment.

The trick is to use this knowledge to your advantage. For instance, avoid lecturing your teenager about how his current behaviour is going to impact on his adulthood. A 15-year-old can’t see life beyond next week let alone when he’s 25. So get into his timeframe when trying to motivate, dissuade or persuade him.

You’re more likely to instil good sleep habits into boys if you point out that a good night’s sleep will help them play football/guitar/surf/ pick up girls than be better for their long-term health!
3. Their ability to focus

Ever noticed how some boys will work at diminished capacity on anything that’s not important to them? This happens around schooling a lot. Give them a project that’s due in a week and they’ll amble along for six days and then focus like a laser beam the night before it’s due (often after a great deal of panic or a brief mental meltdown!)

One way to get boys to focus is shorten their deadlines. Even better shorten the deadline and give them a practical purpose (or a tangible reward if you can’t think of a good purpose) for doing something: “Hand this work in tomorrow and you’ll get ten free minutes of free play!”

There are two aspects to consider.

First, give them time to mature and develop. Don’t expect them to be what you want them to be on your timing. Most boys take their time growing up. It takes patience and time to grow a boy...sometimes a decade or two.

The second aspect refers to communicating with boys. Adults who do best with boys have a way of getting into their timeframe. They can talk with them about what interests them now, what’s important to them now, what’s grabbing their attention now. That’s relatively easy when your sons are under ten, but challenging when they are teenagers.

So time and timing are the keys!

Give boys time to mature, give them your time and get into their timeframe if you want to get on their wavelength.
