Raising confident and competent children

Parents, grandparents and carers are invited to a Parenting Matters seminar by Triple P–Positive Parenting Program founder Professor Matt Sanders focussed on primary school aged children 8-12 years.

Triple P is an Australian parenting program based on 30 years of research and has reached parents of more than seven million children and their families in more than 22 countries around the world, including Australia. This is a unique opportunity for WA families to hear personally from this internationally recognised parenting expert, ask questions and learn from the experiences of other parents.
