MAY PRESENTATION: Thoughts on the Gospel:
"The vine was another of Jesus’ favourite images for himself and he uses it to help his disciples understand the closeness of their relationship. They were not simply rabbi and disciples but their lives were mutually dependent - as close as a vine and its branches. To produce fruit true to type, a vine is grafted onto a strong rootstock - two plants, in effect become one. The rootstock goes deep into the ground drawing up the nutrients the plant needs. In their turn, the branches grow and develop in a way that pleases the root. The problem is that, left to themselves, the branches will grow and grow... this may be a joy to watch and a fine example of exuberant growth but it is, unfortunately, at the expense of any grapes that may be trying to grow on the branch. It is a waste of energy to the plant and to the people whose lives the plant serves. If one branch is not bearing fruit then it is pruned back almost to the grapes so that the energy is channelled into fruitfulness and not into foliage! At the same time, any branches not bearing fruit are removed - again so that the plant’s energy is directed to its fruit.”
