YEAR FIVE UPDATE

We have been extremely busy this term and its only week three!! We have been preparing our speeches for the leadership roles available for next year. Our class is also given the opportunity to vote, which is very exciting.

In English we are writing narrative plans and constructing timelines, using major events, from the various novels we have studied this year. We have also been given several opportunities to creatively write our own stories. Spelling has been another focus in our class, as we follow the *Words Their Way* program. There are so many different and interesting tasks to complete at our own level.

In Society and Environment we are learning about the local government. We are concentrating on the various duties and responsibilities this government has over the next few weeks. In week six we have an incursion, with a guest speaker discussing the three levels of government. We also have several guest speakers from the local government explaining the different jobs and needs they provide to our community.

Our Year Five Class Disco.

We had so much fun preparing and putting up the decorations. Isaac bought in a coloured disco ball. All of us bought in a plate of party food and we danced the afternoon away. It was a memorable event, especially playing limbo.
