

## Sun Safe Requirements

To ensure that all of the children are protected from the sun during this vacation care, please remember the following:

- Please ensure that your child is wearing sunscreen before they come to the service in the morning. We will top up throughout the day but this will help ensure a good base for the day.
- **Please try to send your child in clothes that cover their shoulders.** This will reduce the amount of sun that they are exposed to.
- Remember to provide a sun smart hat each day.
- On days when your child will be wearing bathers for part of the day, please provide a rashie or a t-shirt for them to wear and again ensure that they are fully covered in sun screen before they arrive.
- If your child has an allergy to most sunscreens please provide an alternative in their bag.
